Inspired by the care you deliver

Family Business Since 1830

The Stevens Company has been a pillar in the Canadian healthcare community since 1874 and stands as one of the largest medical supply distributors in Canada today. Originally founded in 1830 in London, England, the company is still owned and operated by the Stevens family, now in their 6th generation. Over the decades, Stevens has continued to grow and today has six distribution centres across Canada in Toronto, Vancouver, Calgary, Winnipeg, Halifax, and most recently, Montréal. Stevens has an experienced staff, including 50 sales representatives and product specialists to serve our customers.

Better BP®
is Better Care

Midmark designed the only fully integrated point of care ecosystem to help promote a more consistently accurate blood pressure measurement by targeting 3 key areas using 3 unique products.

Proper Patient Positioning

The **Midmark® 626 with Patient Support Rails+** is designed to promote AMA-recommended patient positioning for blood pressure capture.[1] The barrier-free low chair height allows most patients to place their feet flat on the floor while the accessory rails support the arm at heart height.

Accurate, Consistent BP Capture

IQvitals® Zone™ with the SPRINT BP Protocol introduces automation at the point of care that can help ensure a higher level of standardization, minimizing human variables while maximizing consistency and data accuracy.

EMR Connectivity

Seamless connectivity from the **IQvitals Zone** device to the **EMR** saves time and reduces the likelihood of data transcription errors. **Midmark Zone technology** transfers data to the EMR using a secure Bluetooth® Low Energy connection at the point of care.

*Midmark 626 Barrier-Free®
Examination Chair with the Patient
Support Rails+ Accessory and
IQvitals Zone Vital Signs Monitor*

① **Proper Patient Positioning** ➕ ② **Accurate, Consistent BP Capture** ➕ ③ **EMR Connectivity**

The All New Hillrom® Welch Allyn® Spot Vital Signs® 4400 Device

Easy to Navigate, Easy to Use

Blood Pressure Averaging with One Tap

All-In-One Vitals Capture

EMR Connectivity via USB Cable

Simplicity, delivered

You work in a fast-paced environment, so you can't afford to slow down when it comes to capturing the basics. Our next-generation vital signs device is here to help. Experience simple, accurate vitals capture with a solution that fits smoothly into your daily routine. The Spot Vital Signs® 4400 device offers an efficient way to capture, access and document patient vitals so you can focus on what really matters—spending more time with your patients.

Simple

An intuitive, all-in-one design makes the Spot Vital Signs® device easy to use—for caregivers at any level. Add it to your existing workflow without disruption and begin exams quickly from the touchscreen.

Accurate

Trusted for clinical accuracy and consistent measurements, the Spot Vital Signs® device can help you make informed treatment decisions at the point of care. The portable design can also help standardize vitals capture throughout your facility and increase productivity for high-volume environments. Plus, blood pressure averaging is now part of the main workflow, enabling you to take and average multiple readings for improved hypertension detection.

Connected

Save time and help reduce data entry errors by sending patient data to the EMR.

#111-44XT   Spot 4400 with NIBP and SureTemp® Thermometer
#111-44WT   Spot 4400 with NIBP, SureTemp® Thermometer, and Nonin® SpO2

Heine ML4 LED HeadLight®

- Up to 90,000 Lux of bright, white light
- Stepless light intensity control
- Binocular loupes and prism optics for video adaption
- Viewing angle adjustable over a wide range
- Multi-coated glass optics for maximum brightness

Bovie® Smoke Shark™ II Smoke Evacuator

- Light-weight, ultra-quiet, and compact design, allowing for simplified operation and storage
- Minimizes exposure to smoke plume during electrosurgical procedures, increasing facility safety and reducing hazardous risk
- The Extended-Life Filter (SF35) offers up to 35 hours of performance, reducing procedure cost by 38%(±) when used at the lowest setting
- 2-year warranty

#887-SE02   smoke evacuator, without filter or tubing
#887-SF35   long-life 35-hr filter
#887-SEAS   arm stand
#887-SETWS-X   ⅞" x 6ft tube with wand and tip, sterile

Heine HR® 2.5x High-Resolution Binocular Loupes

Set includes: optics with i-View on S-Frame, detachable protective lenses, 2 sterilizable swivel levers, retaining cord, cleaning fluid, cleaning cloth, and carrying case. Working distance: 420mm.

#799-C-000.32.356

Bovie DERM 942™ High Frequency Desiccator

- 40W of power
- Higher resolution in bi-polar mode
- Features that can save you time and money
- Fewer steps needed to accomplish the same procedures

#887-A942

Bovie® High-Temperature Cauteries

#887-AA01	fine tip	**each**
#887-AA03	loop tip	**box of 10**
#887-AA05	loop tip w/extended 2" shaft	**each**

Cardiology

Hillrom. WelchAllyn
CP 150™ Electrocardiograph

- 7" colour, touch screen display for fast and easy entry of accurate patient information
- Three lead ECG preview
- Optional adult and pediatric MEANS ECG interpretation software offers a second opinion
- Battery operation lets you easily transport your device to the patient
- Store up to 100 test results on the device or transfer to a USB memory stick

#111-CP150-1ENB   ECG, non-interpretive, 12-lead

Hillrom. WelchAllyn
12-Lead, PC-Based Resting ECG

- Wireless ECG connection with the WAM Wireless Acquisition Module.
- Streamlines workflow by capturing and saving an ECG in as few as two clicks.
- Captures best 10 seconds of ECG data from memory, reducing the need for repeat ECGs.
- VERITAS algorithm limits filtering so as not to sacrifice potentially life-saving waveform data.
- Supports DICOM and HL7 communication.
- Application launches from EMR.
- Saves PDFs to any network folder.
- Complies with ACC, AHA and HRS recommendations for adult and pediatric patients.

#111-CC-RXX-AAXX
ECG with AM12 Wired Acquisition Module

EDAN
SE-1200 12-Channel ECG

- Large, high resolution colour touch screen
- Alphanumeric keyboard
- One-touch operation
- Enhanced weak signal detection
- Comprehensive filters & anti-noise technology
- Real-time ECG waveforms freezing and review
- Advanced Glasgow algorithm for automatic measurements and interpretation
- Built-in high resolution thermal printer with external USB printer (optional) support
- Extended printing
- Large internal memory which can be enlarged by USB flash disk
- Built-in data management with reports review
- LAN/Wi-Fi (optional) connections
- Bi-directional communication with SE-1515 Data Management System

#759-SE1200EXB
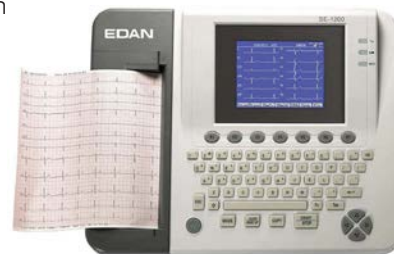

Aneroid Wall Sphygmomanometer Heine Gamma XXL LF

- Oversized 130mm diameter scale. Can be pivoted for clear, easy reading from any angle
- Latex-free
- 10-year warranty
- Complete with adult cuff

#799-M-000.09.323

10-year warranty

Heine Gamma G7® Aneroid Hand Sphygmomanometer

- Shock proof
- Latex-free
- Exclusive pressure-distribution system
- Pressure-proof manometer
- Micro-filter—protects valve and manometer
- 56mm diameter black-on-white scale is easy to read
- 10-year warranty
- Comes in a zippered pouch

#799-M-000.09.232   with adult cuff
#799-M-000.09.554   family kit (child, adult, and small adult cuffs)

Tycos DuraShock Hand Aneroid Sphygmomanometer DS58

- Premium inflation system for comfort
- Unsurpassed reliability in a traditional hand-held design
- Latex-free

#111-DS58-11
with 1 one-tube adult cuff and nylon zipper case

#111-REUSE-09-1TP   one-tube, child cuff (size 9)
#111-REUSE-10-1TP   one-tube, small adult cuff (size 10)
#111-REUSE-11-1TP   one-tube, adult cuff (size 11)
#111-REUSE-12-1TP   one-tube, large adult cuff (size 12)

Welch Allyn® 767 Aneroid Sphygmomanometer

- Laser-engraved dial face provides unmatched accuracy
- Recessed dial face and high-contrast red pointer increase visibility and reduce parallax errors
- Lifetime calibration warranty
- Mercury- and latext-free

#111-7670-01   sphyg with reusable adult cuff; wall mount
#111-REUSE-09-2TP   two-tube, child cuff (size 9)
#111-REUSE-10-2TP   two-tube, small adult cuff (size 10)
#111-REUSE-11-2TP   two-tube, adult cuff (size 11)
#111-REUSE-12-2TP   two-tube, large adult cuff (size 12)

DS66 Trigger Aneroid Sphygmomanometer, Gold Series

- The DS66 Trigger features an innovative trigger-release design for easy operation
- Shock resistant to maintain accuracy
- Trigger deflation valve for smooth, one-finger operation

This kit includes: DS66 aneroid gauge, durable one-piece adult cuff, and nylon zippered case.

#111-5098-27

Diagnostix™ 700 Pocket Aneroid Sphyg

- Chrome-plated precision crafted 300mmHg manometer
- Luminescent dial features bold numerals and extended graduation marks for easy reading in all light conditions and from virtually any angle
- Adcuff™ nylon cuff with ADC's proprietary Size Guide™ marking system prevents mis-cuffing

#334-700-11ABK

Hillrom WelchAllyn®

Welch Allyn® Green Series™ 777 Integrated Wall System

- Upgrade to our new Welch Allyn® PanOptic Plus Ophthalmoscope and Welch Allyn® MacroView Plus Otoscope - both featuring bright white LED technology and the option to add your smart device with our iExaminer SmartBracket to save and share exam images when needed.
- Switch your specula to new LumiView™ Clear Single-Use Ear Specula, with up to 8X* brighter views when compared to a black ear speculum
- Help improve workflow and save energy with handles that automatically turn on/off

#111-777-SM2WAS

Different configurations available

Hillrom WelchAllyn®

Connex® ProBP™ 3400 Digital Blood Pressure Device

- Small, handheld design makes device easy to carry and capture readings on rounds or in triage settings
- Obtains accurate readings and minimizes error codes, even in the presence of many cases of motion or weak pulse
- USB-wired technology enables connectivity to select EHR/EMR systems, improving documentation accuracy and efficiency
- SureBP™ technology

#111-34XFHT-B

Hillrom WelchAllyn®

Welch Allyn® 3.5V Diagnostic Set

Set includes:
- Coaxial LED ophthalmoscope (11710-L)
- MacroView™ Basic LED otoscope (238-2)
- Lithium Ion Rechargeable Handle (71900-USB)
- Hard case

#111-71-SM2LXU

OMRON

IntelliSense® Digital Blood Pressure Monitor

- IntelliSense® technology provides automatic cuff inflation, eliminating any need to preset inflation levels or adjust calibration
- Includes four cuff sizes for arm circumference range of 17cm–50cm (7"–20")
- 5-year limited warranty

#786-HEM-907XL   monitor
#786-HEM-907-STAND   mobile stand with accessory basket

Hillrom WelchAllyn®

ProBP 2400 Digital Blood Pressure Device

- 3-Reading Average Mode can give a broader view of patient's true blood pressure
- Irregular heartbeat detection provides data to help you make testing decisions

#111-2400

Hillrom WelchAllyn®

3.5V Coaxial Ophthalmoscope

LED illumination produces shadow-free viewing.
#111-11720-L

Hillrom WelchAllyn®

KleenSpec® Specula

Universal disposable ear specula for diagnostic otoscopes.
#111-52432-U   2.75mm
#111-52434-U   4.25mm
bag of 850

Disposable Diagnostic Penlights

- Sealed concentric beam
- Clearly visible pupil gauge
- Activated by depressing the pocket clip
- Measures 5" long, ½" diameter

#001-SC351P
pack of 6

USE – CLEAN – STAY SAFE

This is what you can rely on with the HEINE EN 200 wall unit.

When using a HEINE EN 200 Diagnostic Centre, you can count on an easy and safe hygienic reprocessing. Its housing was designed without any openings on the front side and follows the highest safety standards, which stands true for all HEINE products. Specifically, the power supply and the EN 200 itself have several built-in safety protections against electronic malfunctions.

The EN 200 also offers an optimized workflow and excellent energy efficiency. It can be equipped with a number of HEINE instruments, such as otoscopes, ophthalmoscopes and more. Instrument heads available in LED^HQ – eliminating the need for costly and time consuming bulb replacements.

HEINE

Heine® EN200 Diagnostic Sets

- Optimized work flow and excellent energy efficiency
- Optimal hygienic reprocessing
- Expandable via USB interface

Contact your local Sales Rep for more configurations.

Heine® DELTAone Dermatoscope

- Includes contact plate with scale, USB cord and case
- Field of view of real 21mm (lens 22mm)
- Custom light intensity: 3 degrees of luminous intensity
- 10x magnification
- Toggle function: switch between polarised and non-polarised light at the touch of a button
- No cross-contamination: autoclavable contact plate with scale
- Maintenance-free due to our dustproof design
- Dioptre compensation
- Rechargeable battery with Li-ion technology: no memory effect; you can safely recharge the battery regardless of its charge state
- Wireless connection via iPhone and WLAN with the HEINE Cube System

#799-K-210.28.305   black
#799-K-211.28.305   white

Heine® DELTA 30 Dermatoscope

- Includes contact plate with scale, USB cord and case
- Largest field of view of real 30 mm (lens 32 mm)
- Crystal-clear image with the new achromatic HEINE optical system
- Excellent colour rendering due to LED HQ
- Digital documentation with the exclusive HEINE DERM app or the HEINE Cube System

#799-K-230.28.305

SureTemp® Plus 690 Electronic Thermometer

- Approximately 10- to 13-second rectal temperature
- Easy-to-use, intuitive operation
- The removable probe well reduces the risk of cross-contamination
- Convenient storage for 25 covers
- A prominent recall button for the display of the last temperature taken
- Ergonomic design with rubber grip

#111-01690-200   thermometer
#111-05031-105-X   disposable probe covers
box of 250

CareTemp™ Touch-Free Thermometer

- Infrared sensor reads temperature 4-6cm from the center of forehead
- 60 second pulse timer, memory recall button, C/F scale conversion button
- No patient skin contact required, helps minimize the risk of cross-contamination
- Measurement feedback system detects proper operating distance for accuracy
- Large, backlit LCD display that's intuitive and easy to read

#111-105801

Nellcor™ Portable SpO2 Pulse Oximeter Monitor

- Supports a robust data set, including real-time SpO2 and PR values, SatSeconds alarm management, pleth waveform, blip bar and tabular trend data
- Nellcor™ advanced signal processing technology delivers reliable operation even in difficult monitoring conditions
- LoSat expanded accuracy range (60% to 100% SpO2) when used with Nellcor™ adhesive sensors with OxiMax™ technology
- Compatible with the complete line of Nellcor™ single-patient-use, reusable and specialty sensors with OxiMax™ technology
- 80 hours of data storage capability
- Supports data export to an external personal computer for data analysis and printing functions

#102-PM10N-AD3

Finger Pulse Oximeter

- Drop-tested durable and moisture-proof
- Perfect spot checks or continuous readings
- Simple one-button operation
- Checks heart rate
- Monitors respiratory function
- Requires two AAA batteries (not included)

#718-7088

Braun ThermoScan® PRO 6000 Thermometer

- PerfecTemp™ technology provides superior measurement accuracy
- Corrects for shallow placement of probe in ear
- 60 second pulse timer for manual measurement of respiration or pulse
- Integrates with the Connex Spot Monitor to simplify EMR data transfer
- Charging station and recharging battery pack allow charging in just 3-4 hours
- Security tether attaches the thermometer to the cradle

3M

Littmann® CORE Digital Stethoscope

- Connects to Eko software to visualize and share heart sound waveforms
- Up to 40x amplification (at peak frequency, vs. analog mode)
- Active noise cancellation reduces unwanted background sounds
- Toggle between analog and amplified listening modes
- Soft-sealing ear tips provide an excellent acoustic seal and comfortable fit
- Tunable, dual-sided stainless steel chestpiece with open or closed bell

#800-8480-CA

Heine Gamma® C3 Cardio Stethoscope

- Latex-free tubing
- Ideal for cardiology

#799-M-000.09.944

3M

Littmann® Classic III™ Stethoscope

- Two-sided chestpiece with tunable diaphragms on both the adult and pediatric sides
- Single-piece tunable diaphragm is easy to attach, and easier to clean because its surface is smooth without crevices
- Pediatric side converts to a traditional open bell by replacing the single-piece diaphragm with a non-chill rim
- Next-generation tubing provides longer life due to improved resistance to skin oils and alcohol; less likely to pick up stains
- Small tunable diaphragm is useful for pediatric, small, or thin patients; around bandages; and for carotid assessment
- Stainless steel chestpiece is precision-machined into an aesthetically pleasing, less angular shape. The stem features open side indicator
- Snap-tight eartips have a soft, smooth surface providing a comfortable acoustic seal and comfortable fit
- Five-year warranty
- Length: 69cm / 27.2"

1-800-364-3577 | **Littmann.ca** | **Also available:** Teaching Stethoscope (2138)

ADC® Adscope® 608 Convertible Stethoscope

- Convertible chestpiece provides adult diaphragm/ bell or adult/pediatric diaphragm configurations
- Combination diaphragm/bell adult chestpiece precisely machined to exacting tolerances from surgical stainless steel for outstanding performance and rugged durability
- ADC's AFD technology provides enhanced acoustic response: light pressure for low, bell-type frequency, firm pressure for high, diaphragm-type frequency
- Extra-large bell (1⅜" diameter) for unsurpassed low-frequency response
- Ultra-sensitive diaphragm (1¾" diameter) for greater amplification and crisper high-frequency response
- Non-chill bell and diaphragm retaining rims for patient comfort
- Clinician headset boasts reinforcing yoke molded into flexible 22" PVC tubing and stainless-steel binaurals fixed at 15° angle for greater comfort

#334-608BK   black
*more colour options available

ADC® Adscope® 618 Platinum Pediatric Stethoscope

- Distinctive molded-resin animal face chestpiece optimally sized (1½") for pediatric use
- ADC's AFD technology design switches between low, bell-like frequency and high, diaphragm-like frequency simply by altering pressure
- Non-chill bell and diaphragm retaining rim for patient comfort
- Clinical headset boasts reinforcing yoke molded into the flexible 22" PVC tubing
- Seven interchangeable animal face snap-ons included: Panda, Frog, Koala, Deer, Monkey, Tiger, and Bear

#334-618P   pink
#334-618SF   seafoam
#334-618W   white

ADC® Proscope™ 640 Sprague Stethoscope

- Threaded chestpiece drum of chrome plated zinc permits the use of five interchangeable chestpiece fittings—an adult and pediatric diaphragm, and three bells (1¼", 1", ¾")
- Proprietary valve mechanism eliminates acoustic leakage
- Adjustable aluminum binaurals
- Complete with an accessory pouch containing the bell chestpieces, chestpiece key, 2 spare diaphragms, and one pair of silicone eartips
- Traditional 16" double tube configuration

#334-640BK   black
*more colour options available

ADC® Adscope® 658 Electronic Stethoscope

- Amplifies sounds up to 18X (24dB)
- Noise-filtering contact microphone eliminates background interference
- Cardiology headset with bi-lumen tubing and stainless-steel binaurals
- Multifunction button controls the frequency mode (bell or diaphragm) and the volume (eight levels)
- Rechargeable Li-ion battery, twenty hours of continuous use on a full charge
- 30" / 175g

#334-658BK   black
*more colour options available

HUNTLEIGH
Sonicaid™ FD1 & FD3 Advanced Fetal Doppler

- Advanced real-time auto-correlation fetal heart rate processing
- Active noise reduction for crystal-clear fetal heart sounds
- 2MHz (FD1) & 3MHz (FD3) waterproof transducer suitable for use in a water birthing environment
- Advanced power management with auto switch-off to conserve battery life
- Long robust coiled cable enables optimum transducer position in all circumstances

#684-FD1-P   2MHz
#684-FD3-P   3MHz

HUNTLEIGH
Sonicaid™ D920 Fetal Doppler

- High-sensitivity ultrasound for improved ease of use
- 2MHz waterproof transducer suitable for use in a water birthing environment
- Low battery indicator
- Easy-clean transducer for improved infection control

#684-D920-P

HUNTLEIGH
Dopplex® D900 Non-Directional Vascular Doppler

- Clear audio sounds of blood flow or fetal heart
- Enhanced battery management
- Compatible with the complete range of vascular probes
- Large carry bag and headphones included

Our operator-friendly analyzers generate lab-quality results in minutes

DCA Vantage® Analyzer

A POC system that helps you detect diabetes and prediabetes,* monitor glycemic control, and detect early kidney disease.

- Simple test procedure requires no sample or reagent preparation.
- Comprehensive onboard tools include patient-trending graphs and a GFR calculator to support effective time-of-visit consultations.
- DCA Systems are used by three out of five physicians who perform HbA1c testing in their office.**

**GHX Market Intelligence, market data report. 4Q 2014 report.

HbA1c (1 μL blood sample) and ACR (40 μL urine sample) results in 6 and 7 minutes.

CLINITEK Status+ Urine Chemistry Analyzer

A POC system with a comprehensive urinalysis menu for routine testing, detection of early kidney disease, and hCG pregnancy testing.

- Instrument-read-and-reported urine strip results eliminate the subjectivity of visual interpretation.
- System delivers accurate spot testing on varying urine concentrations with no test preparation.
- Measuring urinary ACR is recommended for screening individuals at risk of kidney disease.‡

‡2013 NKF/KDIGO Guidelines for Chronic Kidney Disease.

ACR and other essential reagent strip results in 60 seconds.

Xprecia Stride Coagulation Analyzer§

A handheld POC analyzer that helps you monitor patients on Warfarin anticoagulation therapy.

- Interactive touchscreen, step-by-step instructions, and bar-code scanner enhance usability.
- Ergonomic, easy portability, and a small sample volume maximize testing efficiency.
- Dade® Innovin® reagent provides results comparable to laboratory methods.
- Test strip eject button helps minimize potential biohazard exposure.

§Under FDA review. Not available for sale in the U.S. Product availability varies by country.

Results measured across 0.8–8.0 PT/INR range using 6 μL capillary blood sample.

Ring Rescue™ Non-Destructive Ring Removal

Ring Rescue™ is simple: apply, inflate, and within seconds the device is working, with uniform and measurable air pressure to decrease finger swelling and therefore decrease finger size, so that the ring can be removed. Return minutes later, remove the device, and attempt to remove the ring intact.

#586-RKM-CA	Ring Rescue™ device with lubricant
#586-RL-CA	lubricant refill

Lighted Ear Curette™

Added Assurance For Every Patient.

Accel® Wipes deliver effective, one-step cleaning and disinfection with a choice of dwell times.

- Effective against key pathogens – including MRSA, VRE and Norovirus

- Pre-wetted disinfectant cleaner wipes based on proprietary

- Accelerated Hydrogen Peroxide® technology to deliver fast, effective, responsible cleaning performance

- Compatible with most hard, non-porous surfaces

- After use the key ingredient breaks down into oxygen and water

IntelliCare™ Dispensing System is a versatile, modern and durable platform, compatible with liquid/gel & foam products.

- Patented built-in technology that allows for touchless & manual activation, and provides low-content alerts

- Robust and reliable ABS-plastic, scratch and UV-resistant

- Dose size switch and optional snap-in placard for ultimate versatility

- Smart packaging that is full product visibility at all times with a patented bottle design that collapses from the back

- Dermatologically tested formulations

Accel® INTERvention™
1 min. dwell time
Accel® PREvention™
3-5 min. dwell time

When Efficacy and Speed Go Hand-in-Hand.

Give them the power that comes with knowing CaviWipes 2.0 works effectively against viral pathogens of today[2] and tomorrow[3].

After 20 years of trusted infection prevention, CaviWipes knows the need for efficacy. With our next-generation CaviWipes 2.0, we're stepping it up with even stronger efficacy claims[4] and a 2-minute contact time. Qualified for the Broad Spectrum Virucidal Claim for all virus types[1], CaviWipes 2.0 is your single source for infection prevention today[2] and tomorrow[3]. Hands down.

We tackle the germs, so you can focus on what's at hand.

The PURELL SOLUTION™ is a comprehensive set of products that work together to help you provide better care.

Contact your sales representative to find out how **Canada's #1 brand of hand sanitizer*** can help keep your practice healthy.

PURELL® Advanced Hand Rub Foam

- Green certified, fragrance-free, dye-free foam formulation
- Scientifically advanced, 70% formulation outperforms other leading hand sanitizers milliliter for milliliter[1]
- Enhanced with a nourishing blend of four different skin-conditioners that are clinically proven to help maintain skin health[2]
- Compatible with nitrile, vinyl, and latex gloves
- Hypoallergenic

PURELL® ES4 Push-Style Hand Sanitizer Dispensers

- AT-A-GLANCE™ refills—Monitor product level with just one look
- SANITARY SEALED™ PET refill is easily recycled

| #391-5020-01 | dispenser | **each** |
| #391-5051-02-CAN00 | 1200mL refill | **case of 2** |

PURELL® ES8 Touch-Free Hand Sanitizer Dispensers

- "Energy-on-the-refill" technology—every refill has a built-in energy source, designed to last as long as the refill

| #391-7720-01 | dispenser | **each** |
| #391-7751-02-CAN00 | 1200mL refill | **case of 2** |

1. When tested using the ASTM E 1174 Healthcare Personnel Handwash test methodology, against other hand sanitizers commonly used in healthcare facilities, Study # 110103-101, April 5, 2011; # 100907-101, January 6, 2011; 111209-101, March 8, 2012; BioScience Laboratories, Bozeman, MT.
2. Kills more germs than other national brands when tested on hands in accordance with the FDA Healthcare Personnel Handwash methodology.

PURELL® Hand Sanitizing Wipes Alcohol Formula

- Durable, non-linting wipes
- Kills more than 99.99% of most common germs that may cause illness
- Removes light soils and dirt from hands
- Fragrance- and dye-free
- FDA Food Code compliant

#391-9031-06-CAN00

case of 6 tubs of 175

PURELL® CRT HEALTHY SOAP™
High Performance Foam

- Remarkably mild formulation removes over 99% of dirt and germs without antibacterial ingredients or harsh preservatives.
- CLEAN RELEASE™ Technology reaches into skin's cracks and crevices 2X better than regular soap to remove dirt and germs[3 4 5]
- A 0.53 log germ removal improvement on dry, irritated skin compared to regular soap—3.4X fewer germs left on skin[6]
- Formulated specifically for dry, sensitive skin and frequently washed hands
- Removes 33% more bio soil than regular soap[7]
- Free of harsh preservatives, antibacterials, parabens, phthalates, fragrance and dye
- Rinses fast and clean for easy gloving—saves an average of 15,000 gallons per year in a 500-bed hospital
- Better wash experience—95% preferred over regular soap[8]

Instrument Cleaning Guide

Spaulding's Classification of Medical Equipment/Devices and Required Level of Processing/Reprocessing

Classification	Definition	Level of Processing/Reprocessing
Critical Equipment/Device	Equipment/Device that enters sterile tissues, including the vascular system	Cleaning followed by Sterilization
Semi-critical Equipment/Device	Equipment/Device that comes in contact with non-intact skin or mucous membranes but does not penetrate them	Cleaning followed by High Level Disinfectant (as a minimum requirement). Sterilization is preferred
Noncritical Equipment/Device	Equipment/Device that touches only intact skin and not mucous membranes, or does not directly touch the client/patient/resident	Cleaning followed by Low Level Disinfectant (in some cases, cleaning alone is acceptable)

Cleaning

Never keep used/dirty instruments in a dry container. Make sure BLOOD and DEBRIS don't have a chance to dry. If you are unable to process them right away use:

An Enzymatic Cleaner to help to remove organic material
#042-EBL1HC   Enzyclean® instrument cleaner, pre-soak single, 1 gallon
#517-10-4100   EmPower™ dual enzyme instrument cleaner, 1 gallon

Or a neutral pH detergent:
#042-B1HC   Low suds instrument cleaner, 1 gallon

Always rinse off chemicals with distilled water.

ULTRASONIC CLEANING is usually recommended as the best way to clean surgical instruments.
#594-CSU1   Ultrasonic cleaner, 1 gallon

MANUAL CLEANING: Use stiff brushes to make sure all visible dirt is removed.
#444-10-1651-X   Nylon bristles instrument brush

Use a surgical instrument cleaner
#071-002900   Organisol instrument cleaner, 4lb container, with scoop

Make sure everything looks sharp and all moving parts are working correctly.

High Level Disinfection

Keep in mind safety, efficacy, compatibility, and the environment.

Accelerated Hydrogen Peroxide

Not recommended for instruments with brass, copper, or tungsten carbine.

Prevention—5-minute HLD for respiratory and plastics. 6-hour chemosterilant
#909-11505   4L bottle

CS20—20-minute chemosterilant
#909-11405   4L bottle

Sterilization

It is recommended that all surgical instruments be autoclaved, if possible.
#144-M11-042   Midmark M11 autoclave, 11" x 18" chamber

Always use distilled water in your autoclave.
#781-AQ00334   Distilled water, 4L, case of 4 (Western Canada Only)
#320-72404   Distilled water, 4L, case of 4 (Ontario, Quebec and Eastern Canada Only)

Lubricate all moving parts.
#162-3-705   Instrument lubricant, 1 gallon

Use self-seal pouches to autoclave and store your instruments.
#164-SS1   Self-seal clear pouch, 3.5" x 8", box of 200
#164-SS2   Self-seal clear pouch, 3.5" x 10", box of 200
#164-SS4   Self-seal clear pouch, 5" x 10.5", box of 200
(Other sizes available)

Use chemical or biological indicators regularly to ensure
your autoclave is working properly.
#800-1243B   Steam sterilization integrator, bag of 100
#800-1262P   Attest® biological indicators, box of 25
#800-116   Attest® biological indicator incubator

For instruments that can't be autoclaved or only
require High Level Disinfection (HLD), use a chemosterilant soak.

Check with your Territory Manager to see what cold soak is right for you.

Aldehydes

#009-28+   BM-28 PLUS™ activated 2% glutaraldehyde disinfectant, 4L

#517-11-2801   MetriCide™ 28 high-level disinfectant, 1 gallon

#421-20394   Cidex OPA, 1 gallon
                 HLD 5 minutes at 25°C or 12 minutes at 20°C

Environmental Infection Control

Wipe down all surfaces regularly.
#907-100906722   Accel® PREvention™ 10" x 10" wipes tub of 60 wipes
#517-11-1100   anti-microbial canister, 160 wipes
#507-PO10-IP70   Isopropyl alcohol, clear, 500mL
#507-PO10-IP70   Isopropyl alcohol, clear, 500mL

Don't forget to clean your stethoscope and blood pressure cuffs.

Effective exudate control.

Biatain Fiber with HexaLock Technology

The unique HexaLock Technology integrates gelling fibers in a reinforced hexagon net, ensuring minimal shrinkage and minimising the risk of gap creation and exudate pooling.

Locks in exudate to reduce exudate pooling and thereby minimise the risk of infection and maceration

Minimal shrinkage to minimise risk of gap creation and exudate pooling

Cohesive gel for easy removal and minimal risk of leaving residues behind

IV Supplies

DESIGNED FOR UNEXPECTED HEROES

Are you prepared for sudden cardiac arrest emergencies?
ZOLL Automatic External Defibrillators (AEDs) empower rescuers by delivering a defibrillating shock and unparalleled technology that provides rescuers with real-time, integrated CPR feedback for both rate and depth of compressions.

HOPE IS IN YOUR HANDS
To learn more about the ZOLL AED Plus contact your Stevens Medical representative.

ZOLL

ZOLL
AED Plus® Automated External Defibrillator

Features Real CPR Help®: a tool that is able to actually see what you are doing and provide feedback to help you do it well. Audio and visual prompts help you rescue with confidence and clarity, unmatched by any other AED (Automated External Defibrillator).

- Not pushing hard enough? It will tell you when to push harder
- Not pushing fast enough? A metronome will lead you to the right rate
- Zoll AED will even show you the depth of each compression — in real time
